

## Master System Inc. EDI Integration with Dlcentral

Master System Inc. /Dlcentral Integrated Solution allows your company to become EDI compliant with your customers very seamlessly and relieves your company from data-entry by automating daily tasks.

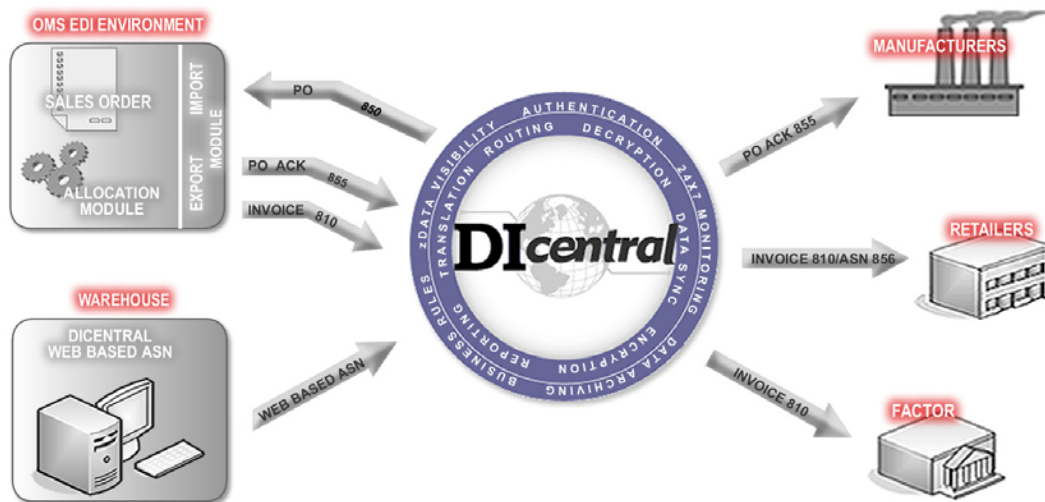

Dlcentral/Master System Inc. reduces business transaction costs, complies with order processing and reconciliation, reduces error rates associated with manual entry, speeds collection times, improves shipping and receiving accuracy and enhances customer satisfaction.

Purchase orders retrieved from Dlcentral will be imported to the Office Master System (OMS) solution where it is translated into an OMS sales order. The created sales order gathers all the critical elements necessary to find your item in inventory, address the quality ordered, identify the correct ship-to location and much more.

UPC Codes' accuracy is enhanced due to the tight interface of the UPC Codes in the OMS inventory database exactly matching to the UPC Codes from the UPC catalog.

### Benefits of Master System/Dlcentral's EDI Integration:

- Realize fast ROI by saving time and effort
- Transition smoothly from current EDI solution under the OMS/Dlcentral partnership
- Connect to any trading partner with Dlcentral's Any-to-Any Platform
- Eliminate data duplication efforts by automating the flow of data into OMS
- Utilize Dlcentral's Experienced EDI Integration Team
- Transmit purchase orders and invoices to your Factor quickly and easily and save money
- Comply to retailer requirements for UCC128 Labels and FedEx shipping requirements

*Choosing Dlcentral's Integration Solution for Office Master System helps you realize the benefits of e-commerce by streamlining the sales and shipping process between you and your retail customers, while leveraging your current investments in technology infrastructure.*
