- Cost Effective Web EDI software
- Produce UCC128 Barcode label from the web - no extra cost

#### Dlcentral Customer Quote:

"We needed a vendor that could integrate its solution with SAP," says John Balog, Nabi's IT manager of applications. "Dlcentral had the tools, and the price was right."

Nabi Biopharmaceuticals (NASDAQ:NABI) discovers, develops, manufactures and markets products that power the immune system to help people with serious, unmet medical needs.

"Chargebacks are critical to businesses like ours that use contract pricing," says Balog. "Recently, we processed 14,000 chargebacks over a month. Dlcentral allows our customers to send their chargebacks electronically, and we can automatically post them to our SAP system, saving time and data re-keying. Dlcentral helped us save manpower that we could use elsewhere."

Nabi began with eight different trading partners using the Dlcentral service. The Boca Raton company hopes to increase that number to 32.

"As we grow, we plan on investigating EDI to help reduce paperwork and improve efficiency," says Balog. "More and more trading partners are demanding it."
