

Dlcentral Makes Grocery EDI Easy!

In the competitive retail grocery environment cutting costs and improving operational efficiency are critical to your success. When looking for a Supply Chain EDI partner to help you improve your vendor connections - look to Dlcentral for a flexible, yet powerful technology to respond to your changing needs. Dlcentral works with over 170 retailers today and is quickly becoming the preferred solution for both suppliers and retailers.

"...A low-cost, user-friendly and fully functional B2B integration solution..."

*- Ian Gray
President, LBMX*

We provide a simple yet comprehensive Internet-based service that gives you the power to complete transactions with all of your vendors, including your small and mid-market companies accustomed to placing orders via fax or telephone.

As the supply chain moves toward more complex transactions Dlcentral can keep pace. With our patent pending web-based tools, your suppliers scale to meet your ever-changing EDI requirements.

Retailer Benefits:

- Maximize your whole supply chain, eliminate paperwork, and improve accuracy
- Automate the whole supply chain with transactions that further improve logistics and operations
