Retail Hardware

Concentrate on running your business & Leave the EDI details to DIcentral

DIcentral's Web-based EDI solutions for retail hardware suppliers are revolutionizing the way retailers do business.

- Easy-to-use solutions compared to traditional retail EDI software
- No-hassle UCC128 shipping labels and Pic & Pak options, and Scan & Pack
- Unlimited local and international retail partners over the Web
- The latest EDI technology - without hardware and software investment
- Control and visibility of your data at all times

DIcentral's Web-based solutions give you unmatched flexibility and ultimate control over your retail relationships. Our expert customer service team will make sure your company is up and running quickly and accurately.

"We like how simple the UCC128 bar code label printing is with DIcentral's online software. We were uncomfortable with how other EDI providers wanted us to take care of the 856 [Advance Ship Notice] and the UCC128 bar codes. The GUI screens in the software are also very intuitive when it comes to lowering the learning curve. We can run our business and not worry about EDI."
